Requesting a bill from LSC

MAKING THE REQUEST

- Call, email, or send a memo to LSC's Assignment Clerk (RequestLSC@lsc.ohio.gov).
- Any member of LSC staff can take a bill request.

BILL DRAFTING

- One or more LSC drafters will work on your bill request.
- Phone calls, emails, and meetings commonly take place between the drafter and you or your staff to ensure the bill meets your needs.

BILL RESEARCH

- Drafters may provide research related to your bill request as part of the drafting process.
- A member also may request research that is not related to a specific bill.

RESEARCH EXAMPLES

■ Topic-related:

- What makes a workers' compensation claim compensable?
- The costs involved in reinstating free hunting and fishing licenses for seniors
- Multi-state survey on texting while driving statutes

RESEARCH EXAMPLES

- Constituent questions
 - Why are my Social Security benefits being reduced?
 - What are the prescribing limits for people with chronic pain?
 - What are the laws regarding handling my neighbor's tree that is encroaching in my yard?
 - When did Ohio law change to stop requiring police to enforce companionship/visitation laws?

SUMMARY

- Requires the placement of automatic external defibrillators (AEDs) in each public and chartered nonpublic school and each municipal sports and recreation location.
- Modifies training requirements related to AEDs in public and chartered nonpublic schools.
- Requires the Department of Health to develop a model emergency action plan for the use of AEDs by public and chartered nonpublic schools, youth sports organizations, and municipal sports and recreation locations.
- Requires, rather than permits, each public and chartered nonpublic school and youth sports organization, before each athletic season, to hold an informational meeting regarding the symptoms and warning signs of sudden cardiac arrest for student and youth athletes.

DETAILED ANALYSIS

Schools

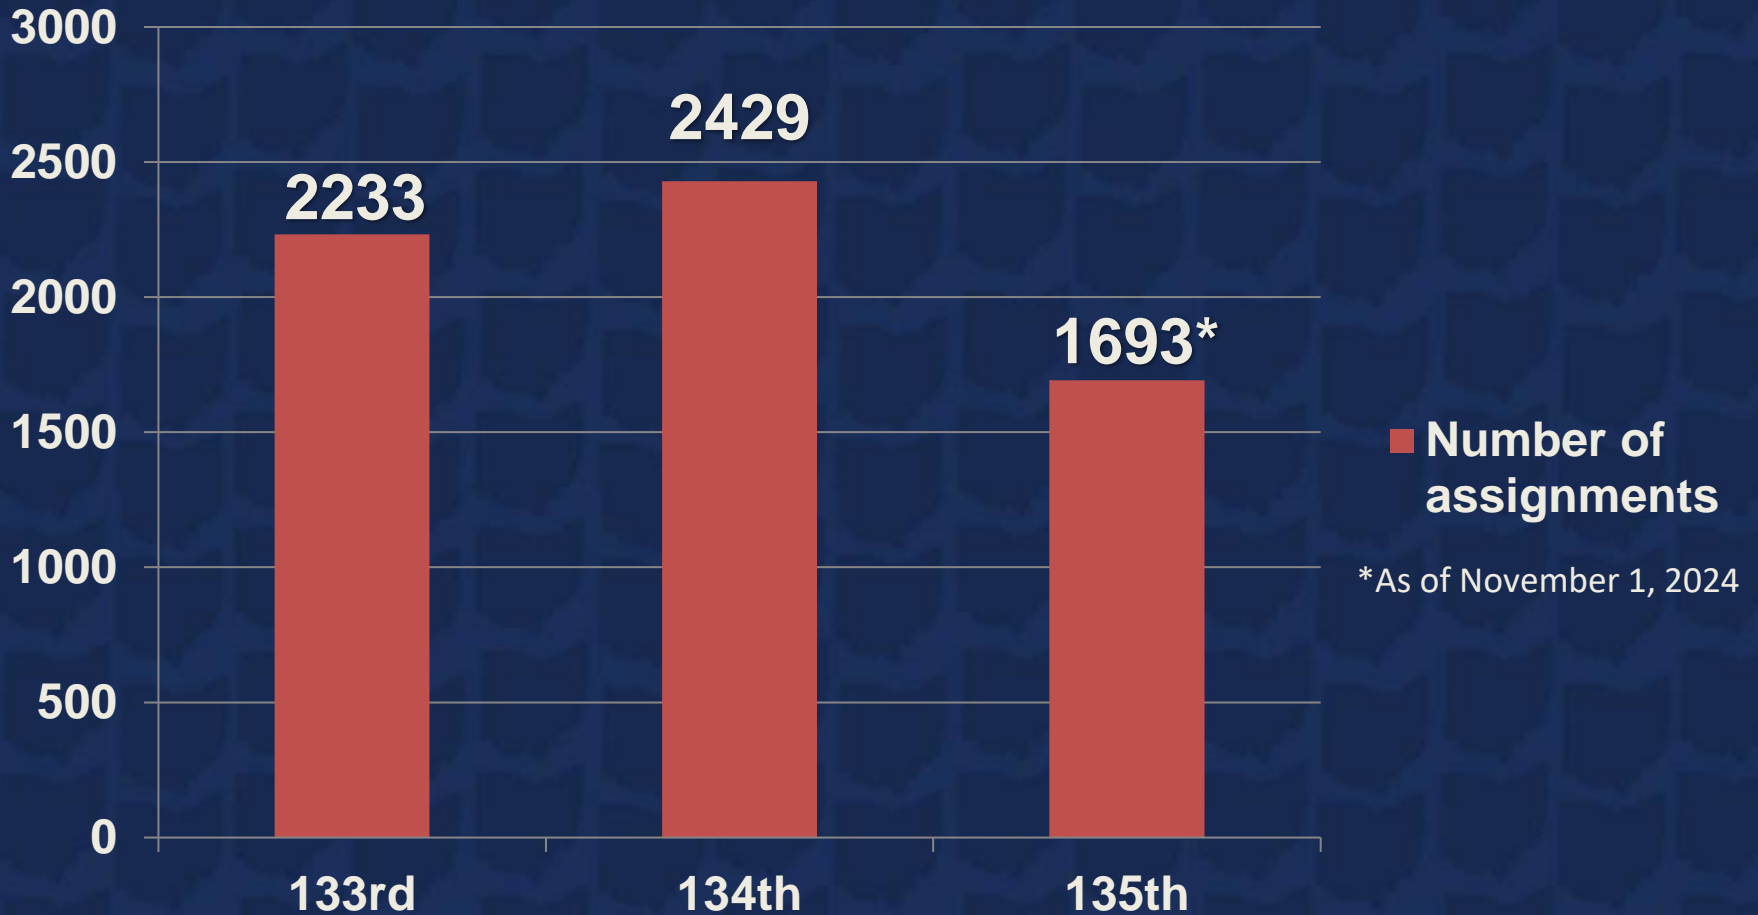

Placement

The bill revises the law on the placement of automatic external defibrillators (AEDs) in schools by requiring, rather than permitting, their placement in schools and by expanding the locations to which the law applies.

Current law authorizes each school district, community school, and chartered nonpublic school to require the placement of an AED in each school under its control. It is silent regarding

Highlights

- School district and community school costs may increase by up to several hundred thousand dollars statewide to purchase automated external defibrillators (AEDs). Survey data indicates that most public schools already meet the bill's AED placement requirements. Statewide, ongoing AED maintenance costs for those that do not already comply with the bill may be in the tens of thousands of dollars annually.
- The number of public sports and recreation locations across the state that will need one or more AEDs to comply with the bill is uncertain. Therefore, the purchase and maintenance costs for the local governments that operate these facilities is also uncertain. An AED costs about \$1,500 more or less while ongoing maintenance costs may add up to a few hundred dollars per year.
- The Ohio Department of Health (ODH) will experience an increase in costs to develop and make available the required model emergency action plan for the use of AEDs by public and chartered nonpublic schools, youth sports organizations, and public sports and
